1 About this policy

- 1.1 We are committed to ensuring the Health and Safety of our staff and all those impacted by our business activities and to providing a safe and suitable environment for all those attending our offices and operational sites.
- 1.2 This policy sets out our arrangements in relation to:
 - a) Assessment and control of Health and Safety risks arising from work activities;
 - b) Preventing accidents and work-related ill health;
 - c) Consultation with employees on matters affecting their Health and Safety;
 - d) Provision and maintenance of a safe workplace and equipment;
 - e) Information, instruction, training and supervision in safe working methods and procedures;
 - f) Emergency procedures in cases of fire or other major incident.
- 1.3 This policy does not form part of any employee's contract of employment and we may amend it at any time. We will continue to review this policy to ensure it is achieving its aims.

2 Responsibility for this policy

- 2.1 Our board of directors (the Board) has overall responsibility for Health and Safety and the operation of this Policy. The Managing Director is the Principal Health and Safety Officer with day-to-day responsibility for Health and Safety matters.
- 2.2 The Managing Director will ensure that this policy is reviewed regularly in consultation with the staff. Recommendations for any amendments are reported to the Board.

3 Your responsibilities

- 3.1 All staff share responsibility for achieving a safe working environment and safe working conditions. You must take care of your own Health and Safety and that of others, observe safety rules and follow instructions for the safe use of equipment.
- 3.2 You should report any Health and Safety concerns immediately to your line manager or Managing Director.
- 3.3 You must co-operate with managers on Health and Safety matters, including the investigation of any incident.
- 3.4 Failure to comply with this policy may be treated as misconduct and dealt with under our Disciplinary Procedure.

4 Information and consultation

- 4.1 We will inform you and consult with you regarding Health and Safety matters.

5 Training

- 5.1 We will ensure that you are given adequate training and supervision to perform your work competently and safely.
- 5.2 Staff will be given a Health and Safety induction and provided with appropriate safety training, including, but not limited to:
- Manual handling
 - First aid
 - Fire safety
 - Display screen equipment (DSE)
 - Use of personal protective equipment (PPE)
 - Control of substances hazardous to health (COSHH)
 - Working at height
 - Asbestos awareness
 - Electrical safety
 - Risk assessment
 - Work place transport
 - Confined spaces

6 Equipment

- 6.1 You must use equipment and PPE in accordance with any instructions given to you. Any equipment fault or damage must immediately be reported to your line manager.
- 6.2 No member of staff should attempt to repair equipment unless trained to do so.
- 6.3 The Managing Director is responsible for ensuring equipment safety and maintenance and the provision of appropriate PPE.

7 Accidents and first aid

- 7.1 Details of first aid facilities and the names of trained first aiders are displayed on the notice boards at offices and operational sites.
- 7.2 All accidents and injuries at work, however minor, should be reported to the Managing Director and recorded in the Accident Book which is kept at each office and operational site.
- 7.3 The Managing Director is responsible for investigating any injuries or work-related disease, preparing and keeping accident records, and for submitting reports to the relevant authorities if required under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR).

8 Fire safety

- 8.1 All staff should familiarise themselves with the fire safety instructions, which are displayed on notice boards and near fire exits in each office and operational site.
- 8.2 If you hear a fire alarm, leave the building immediately by the nearest fire exit and go to the fire assembly point shown on the fire safety notices. Do not stop to collect belongings and do not use the lifts. Fire wardens will assist the evacuation of the building and you must follow their instructions. Do not re-enter the building until told to do so.
- 8.3 If you discover a fire do not attempt to tackle it unless it is safe and you have been trained or feel competent to do so. You should operate the nearest fire alarm.
- 8.4 Nominated individuals will be trained in the correct use of fire extinguishers.
- 8.5 You should notify your line manager or Managing Director if there is anything (for example, impaired mobility) that might impede your evacuation in the event of a fire. A personal evacuation plan will be drawn up and brought to the attention of the relevant fire wardens and colleagues working in your vicinity.
- 8.6 Fire drills will be held at least every twelve months and must be taken seriously.
- 8.7 The Managing Director is responsible for ensuring fire risk assessments are undertaken and implemented, and for ensuring regular checks of fire extinguishers, fire alarms, escape routes and emergency lighting.

9 Risk assessments and measures to control risk

- 9.1 We carry out general workplace risk assessments periodically. The purpose is to assess the risks to Health and Safety of employees, visitors and other third parties as a result of our activities, and to identify any measures that need to be taken to control those risks.
- 9.2 Measures will be taken to avoid or reduce the need to lift or carry items which could cause injury (manual handling) and to provide training on manual handling as necessary.
- 9.3 The use of hazardous substances at work will be avoided wherever possible and less hazardous alternatives will be used where available. Training on the control of substances hazardous to health (COSHH) will be provided as necessary.
- 9.4 Personal protective equipment (PPE) is provided where there are risks that cannot be adequately controlled by other means.
- 9.5 The Managing Director is responsible for workplace risk assessments and any measures to control risks.

10 Computers and display screen equipment

- 10.1 If you use a computer screen or other display screen equipment (DSE) habitually as a significant part of your work:
- a) You should try and organise your activity so that you take frequent short breaks from looking at the screen.
 - b) You are entitled to a workstation assessment.
 - c) You are entitled to an eyesight test by an optician at our expense.
- 10.2 You should contact your line manager to request a workstation assessment or an eye test. Eye tests should be repeated at regular intervals as advised by the optician, usually every two years. However, if you develop eye problems which may be caused by DSE work (such as headaches, eyestrain, or difficulty focusing) you can request a further eye test at any time.
- 10.3 We will not normally pay for glasses or contact lenses, unless your vision cannot be corrected by normal glasses or contact lenses and you need special glasses designed for the display screen distance. In such cases we will pay the cost of basic corrective appliances only.
- 10.4 Further information on the use of DSE can also be obtained from the Managing Director
